

Studio Etiquette

At the counter

- * Don't handle your piercings (even if they are healed) as you may spread bacteria to the studio's common areas thereby endangering both staff and fellow patrons.
- * Bring worn jewelry in a baggie or other sealed container.
- * Never place worn jewelry on the counter or display.

In the restroom

- * Don't handle your piercings (see above).
- * It is never appropriate to change your jewelry in the restroom or other locations in the studio.
- * If you want your jewelry changed at the studio, it should be done by one of the piercers, in the piercing room.

In the piercing room

- * Allow your piercer to direct you to an area where personal belongings may be placed **BEFORE** setting anything down.
- * Camera flashes can be very distracting during the performance of a piercing.
- * Check with your piercer before taking pictures.
- * **Turn off your cell phone.**
